EPA-2023-000037	David Last	Austin Peay Student	My question is simply what were the Environmental Protection Agency to do if an alarming environmental issue was happening in a country that is not an allies to the United States, had an issue that somehow effects the United States. The issues inside the United States can be fixed much easier, but lets say a country that is not an allies or all of a sudden departs from being allies with the United States has an environmental issue that effects us. What would the process be, what if they say no even if it is a absolute necessary that they stop. I would like the know any specifics such as if money were to be bribed around how much money, or if military force would have to be used what kind? Maybe communications with a world leader may be necessary? The possibilities are endless.	10/3/2022

EPA-R9-2023-000175	Juliana Dajon	UC Santa Barbara	Dear Terrence Fleming, Eric Dubinsky, or Custodian of Records: Under the Freedom of Information Act, I am requesting to obtain electronic copies of all Tier 1 notices (sent to consumers) of Nitrate MCL exceedances for all water systems in the state of California from 2003 to 2019. It appears your office maintains copies of these notices, as specified in this Tier 1 notification template: https://www.epa.gov/sites/default/files/2021-02/documents/pn_nitrate_mcl.pdf If there are any fees for searching or copying these records, please inform me if the cost will exceed \$10. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest. I am part of a team of researchers at UC Santa Barbara studying drinking water quality, hence access to these notices will contribute significantly to the public's understanding of drinking water quality in California and its effect on infant health. This information is not being sought for commercial purposes. If access to the records I am requesting will take longer than 10 days, please contact me with information about when I might expect copies or the ability to inspect the requested records. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.	10/7/2022

EPA-2023-000483	Mr. James W Booth	Environmental Associates, Inc.	I am performing a Phase I Environmental Site Assessment of the former "Japanese Auto Repair" property addressed at 24141 Pacific Highway South in Kent, Washington. That site has undergone numerous compliance inspections by the Washington State Department of Ecology beginning in 2003, and is currently listed as a "Cleanup Site" with suspected soil, groundwater, and surface water contamination. The former operator of that site, Larry Huang, was arrested for environmental crimes committed at that site and others in Kent and Seattle. I am hoping to review records of prior EPA compliance inspections, sampling and testing reports, or enforcement actions relating to the environmental conditions at the 24141 Pacific Highway South property, if such exist. Attached are supporting public records provided by the Washington State Department of Ecology. Thank you in advance for your time.	10/24/2022

EPA-2023-000487	Abigail Hodges	Logic Environmental	<p>Good morning,</p> <p>We are doing a Phase I Environmental Assessment at a property located at 250 Auburn Avenue NE in Atlanta, GA. Our database report identified an ERNS listing at the intersection of Auburn Ave & Bell St, very close to the site. The database indicated that in June 2013, oil impacted the street from an underground oil line which ruptured. It also notes that storm drains were monitored to see if they were impacted by oil. The Sequence # is 1051441.</p> <p>Can you help clarify: Can you provide any information on this specific complaint/release? Is the investigation for this complaint ongoing? Has a release to soil/groundwater been identified? How do I get files on these records?</p> <p>I really do appreciate any help or guidance you can provide.</p> <p>Kind Regards,</p>	10/25/2022

EPA-R6-2023-000035	Siobhan Dolan	Nixon Peabody LLP	Looking for information on open RCRA violations Seeking further information on a RCRA violation in 2018 on a property our client may be acquiring. The primary concerns here are that (1) we have no indication as to what type of RCRA violations were cited in 2018, and (2) they were apparently severe enough that an enforcement action was threatened just three months after the RCRA inspection. On the other hand, it appears that no enforcement action was actually pursued against January Transport prior to its cessation of operations at the property, so this may indicate that the violations were corrected and simply not updated in the environmental database. We believe it's important to confirm that there was a resolution. The property has three addresses: 5003-5010 Commerce Road, West Memphis, Arkansas 72301 601 Petro Cove, West Memphis, Arkansas 72301 5050 Commerce Road, West Memphis, Arkansas 72301 This is part of a commercial real estate sale-leaseback transaction and the vendor who completed the Phase I is unclear on the status of the violation in question.	10/3/2022

EPA-R8-2023-000348	Chandra Rosenthal	Public Employees for Environmental Responsibility	<p>Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, as amended, Public Employees for Environmental Responsibility (‘‘PEER’’) requests certain information and communications from the Environmental Protection Agency (EPA) and the (FHWA/DOT) regarding the Colorado I-270 expansion project.</p> <p>Background</p> <p>PEER is concerned that the FHWA and Colorado Department of Transportation (CDOT) are failing to meet the planning requirements of the National Environmental Policy Act (NEPA) for a planned highway expansion in an environmental justice area. Additionally, the Clean Air Act (CAA) mandates that the highway expansion does not cause or contribute to any localized violations of the National Ambient Air Quality Standards (NAAQS), increase or exacerbate existing violations, or delay emission reduction goals. Colorado is experiencing well-known violations of these standards, and the residents of north Denver may be its worst victim. Commerce City is bordered and bisected by interstate highways and is home to the Suncor Oil Refinery and the Cherokee fossil fuel power plant. EPA, in its oversight capacity, has a crucial role to play in the project planning.</p> <p>This community is 83.8% Latino and 44.4% low-income and has been identified as the most polluted zip code in Colorado. As the I-270 expansion is being planned, the community is already enduring the construction of another highway expansion on Interstate 70, for which 56 homes and 17 businesses were demolished.</p>	10/17/2022

EPA-R5-2023-000131	Gary Prichard		EPA, Region 5, is involved in enforcement cases under various environmental statutes. Those cases often involve meetings with the subject of the enforcement case. Enforcement cases in Region 5 usually involve employees of the Region 5 Enforcement and Compliance Assurance Branch (ECAD) and employees of the Region 5 Office of Regional Counsel (ORC). For purposes of this request, the terms "Respondent" and "Defendant" refer to entities that are the subject of enforcement cases. I am seeking through this request: (a) records documenting any meetings on or after April 1, 2022, involving Region 5 employees meeting with representatives of Respondents or Defendants in EPA Region 5's offices at 77 West Jackson Boulevard, Chicago, Illinois, where one or more representatives of the Respondent or Defendant attending the meeting physically came into EPA Region 5's offices for the meeting; (b) if any such meeting occurred on or after April 1, 2022, records documenting: (1) the date of the meeting; (2) the subject of the meeting; (3) the names/titles or other descriptive information identifying the participants who physically attended the meeting in-person in EPA Region 5's offices at 77 West Jackson Boulevard, and/or (4) whether there were also participants in the meeting who participated from a location other than EPA Region 5's offices and, if so, the names/titles or other descriptive information identifying the participants who participated from a location other than EPA Region 5's offices. I expect that, if there have been any such meetings, there might be multiple responsive documents that would provide some of all of the information described above: i.e., multiple records documenting that such meeting occurred, the date of the meeting, the subject of the meeting, participants who	10/6/2022

EPA-2023-000227	Mr. Jon Mitchell	Okinawa Times	<p>To Whom It May Concern,</p> <p>This is a request under the Freedom of Information Act. I hereby request all talking points and memoranda related to PFAS, PFOS and PFOA produced prior to and following the September 2, 2022 meeting between U.S. Environmental Protection Agency Michael S. Regan and Minister of the Environment, Japan Nishimura Akihiro. To facilitate your search, the details of the meeting are attached to this request. To reduce the burden of this search, you may limit your search to the time period: 1 August 2022 to 1 October 2022. I am making this request as a representative of the media, Okinawa Times, in support of my fee waiver. I believe my request meets the above requirements for the waiver of fees. I am a member of the news media - correspondent for the daily newspaper, Okinawa Times, editor at Asia-Pacific Journal and contributor for The Japan Times. The information I am seeking will clearly add to public understanding in the U.S. and Japan of issues surrounding the impact of military installations in Japan, in particular PFAS contamination. Previous articles which I have written related to this issue based upon similar reports have been the focus of intense public debate. The documents we are now requesting will form the basis of a series of newspaper articles and they will be shared with public officials, policy-makers and, if deemed appropriate, made available online. My previous research has been featured in reports by the U.S. Congressional Research Service and the Japanese national parliament.</p> <p>I believe the above supports my assertion that I am able to disseminate this information widely. In the event that fees cannot be waived, I would be grateful if you would inform me of the total</p>	10/11/2022

EPA-2023-000002	Mark Wilson		Summary: This is in regards to EPA Contract #GS-10F-0041X The project is described in a document titled "RE-ENGINEERING SWMM/EPANET USER INTERFACE APPLICATION SOFTWARE ARCHITECTURES" which can be found at the following website: https://github.com/USEPA/SWMM-EPANET_User_Interface/blob/dev-ui-py3qt5/doc/QAPP%2016%203-10-16.docx I am seeking to know exactly why the project was suspended when it was almost complete. I would like a copy of any email, report or document that shows a record of decision regarding the suspension of the project even though it was almost finished. I would also like to know the total amount paid to the contractor Aqua Terra Consultants of Mountain View California for the contract including any and all project extensions, change orders or renewals. I would also like a copy of any email, notes from meetings or phone calls or other record of communications between commercial software vendors and the EPA regarding the project. Potential software vendors that the possible communications may be with may include but not limited to Bentley Systems, Innovyze (now owned by Autodesk), and KYPipe. I would also like to know if the EPA would consider finishing the project and see it through to completion.	10/3/2022

EPA-2023-000407	Robert Lewis	CalMatters	<p>This is a request for government agency records made under the right of access granted by the Freedom of Information Act. This request is dated Sept. 29, 2022. I am writing to request copies of the following records:</p> <p>â€¢All manifests showing hazardous waste exported to Recicladora Temarry de Mexico in 2021 and 2022. Such records would contain information including but not limited to the generator name and location, the exporter name and location, the waste description and amount, and the shipment dates.</p> <p>â€¢All inspection reports - prepared by or in the possession of the EPA - pertaining to Recicladora Temarry de Mexico since 2010 including inspections conducted by the EPA or by Mexican counterpart agencies.</p> <p>It's my understanding that the EPA requires the movement of hazardous waste - both domestically and out of the country - to be tracked using a manifest system. It's my understanding this system provides a "cradle to grave" record of the waste from the generator to the transporter to the destination facility.</p> <p>I am aware that some U.S.-based hazardous waste generators have in recent years exported hazardous waste to Recicladora Temarry de Mexico located at or near Carretera Fed. No. 2, Mexicali-Tijuana, KM 121, San Pablo, Tecate, BCN 21530. In its annual hazardous waste export report to the EPA for 2021, Temarry Recycling Inc. (EPA ID: CAR000194217) indicated it handled the export of 6,099 shipments to Recicladora Temarry.</p>	10/20/2022

EPA-2023-000226Mr. Jon MitchellOkinawa Times10/11/2022

To Whom It May Concern,

This is a request under the Freedom of Information Act. I hereby request all emails sent and received by the following email address - (b)(6_ “ containing the words Kadena, Futenma, Yokota, Atsugi, and Misawa. To reduce the burden of this search, you may limit your search to the time period: 1 August 2022 to 1 October 2022. Please note the timeframe relates to the lead-up/aftermath of Mr Regan's visit to Japan and the discussion of PFAS (see the attached file). If the number of related emails surpasses one hundred (100) then we are prepared to accept a rolling release of the information in batches of 100 pages per calendar month.

I am making this request as a representative of the media, Okinawa Times, in support of my fee waiver. I believe my request meets the above requirements for the waiver of fees. I am a member of the news media - correspondent for the daily newspaper, Okinawa Times, editor at Asia-Pacific Journal and contributor for The Japan Times. The information I am seeking will clearly add to public understanding in the U.S. and Japan of issues surrounding the impact of military installations in Japan, in particular PFAS contamination. Previous articles which I have written related to this issue based upon similar reports have been the focus of intense public debate. The documents we are now requesting will form the basis of a series of newspaper articles and they will be shared with public officials, policy-makers and, if deemed appropriate, made available online. My previous research has been featured in reports by the U.S. Congressional Research Service and the Japanese national parliament.

I believe the above supports my assertion that I am able to

EPA-2023-000406	Dr. Colin Purrington		<p>Could I please receive communications and documents regarding (1) a meeting with Spartan Mosquito (AC2T, Inc.) on December 4, 2019, and (2) a request on December 17, 2019, for additional efficacy data on the Spartan Mosquito Pro Tech? I am attaching two documents from Spartan Mosquito that refer to these events. The third uploaded document (an email date November 11, 2020) indicates that Andrew Wheeler, Susan Bodine, and Alexandra Dunn became involved in the registration process in some way. There were likely additional EPA staff involved in these interactions. Other persons at the EPA who might have relevant documents include Elizabeth Fertich (Product Manager 04, Invertebrate & Vertebrate Branch 1, Registration Division(7505P), Office of Pesticide Programs), the signatory on the Spartan Mosquito Pro Tech's label (Decisions Nos. 554569, 569675), and Erik Kraft (Branch Chief, Regulatory Management and Science Branch).</p>	10/20/2022
EPA-R4-2023-000357	Mr. John F Salvino		<p>As I am conducting a property assessment at the Hopewell Designs, Inc facility at 5940 Gateway Drive, Alpharetta, Forsyth County Georgia 30004. The facility manufactures and calibrates equipment for the nuclear industry and is reportedly regulated by US Nuclear Regulatory Commission. The property also annually reports lead storage under the Toxic Release Inventory System (TRIS). The property is listed on the Facility Index Systems (FINDS) and Integrated Compliance Information System (ICIS) IPCRA 325 Action or Penalty, Enforcement Action Number 04-2010-9102. The Facility Registry Identification number is 110040366083. However I have been unable to find the EPA enforcement records in the FOIA library.</p> <p>If there are available documents regarding this property, I am respectfully requesting that at your earliest convenience EPA provide an electronic copy of the records. Please let me know if you have any questions regarding this request. Thank you again for your time and effort.</p>	10/18/2022
